The True Ar stocrats. Who are the nobles of the earth-The true aristocrate-Who need not bow their hands to lords, Or doff to sings their bat ? Who are they lut the men of toil, The mishty and the free,
Whose hearts and hands sub us the earth

And compass all the see? Who are they but the men of toil Who cleave the forest down. And plant amil the wildern sa The hamiet and the town? Who fight too battles bear the scars, And give the world its crown Of name and fame and history,

And pomp of o d recown? They claim no gaul of heraldry, And scorn the knightly rod; Their costs of arms are noble deeds, Their peerage is from God! They take not from ancestral graves The glory of their name, But win, as erst their fathers won, The laurel wreath offame!

Bescendants of Pirates.

The eves of the world rest on the town of Duleigne, which the Albanians are ordered by the Powers of E prope to give up to plucky little Montevegro. It lies on the Tarkish side of the Adriatio sea, at a point opposite Rome and Naples, midway between e.ch. I: is called in that quarter of the earth Dool cheen yo. About 8.000 people live there, and are the effate descandants of the most formidable band of pirates that ever existed. It is a very old town, as everything in that region is old beyond our Western measing of the word. One hundred and six:y years before Christ the city surrendered to the Romans, and received ex motion

from taxation and its freedom. From 1 500 to 1,600 pirates held full sway. and in 1718 a great battle was lost there by the Venetiaus. In the seventeenth century, Dalcigno became almost as noted as Jerusalem on Suspenders. account of the successful assumptions of an imposter named Sabbatai, who proclaimed himself the Messiah. Converts to Sabbatai were numbered by thousands in every part of Europe. His face was handsome, and his conduct austere and becoming to the part he played. He was deeply versed in the Talmud, and able, through his fine education and general earnestness of demeanor to impose upon all who came uoder

his i flaence. As his fame increased his responsibilities widened, and it became necessary that he should depose the Saltan, the enemy of Christianity. He therefore set out for Constantinople to contound the Turk with his anathema. Owing to the moral power which he had acquired, this expedition was not so crazy an affair as might be imagined. However, the Sultan met him with craft, temporized, and finally got him in his power. Under threat of execution the impostor renounced his claims and became a convert to the Mussulman's faith. He was then banished to Daloigno. where, such is the power of faith, his former disciples refused to accept the fact of his apostasy to any other light than as a dividely inspired means of bringing Islam to his feet. The religion of Sabbatai of Dulcigno continued to thrive until his death, and his tomb became a shrine for fanatical pilgrims of Germany and france.

The barbor of cld Dulcigno is one of the oldest on the Adriatic, and the best that exists on that harborless coast between the southern point of Dalmatia and the mouth of the Drio. The haven is a sure safeguard from the south wind-the fierce sirocco, but is exposed on its northern side. When the pirates were captured in the 16th century, this harbor was the scene of the conflagration of 500 of their ships, a lustration that at one blow forever purged the whole Adriatic Sea. In 1878 the Montenegrine took Du'cigno by storm, most of the Turkish garrison having previously gotten away by the sea. Austria, however, at the Ber in Congress,

objected to its retention by Montenegro. Austria is chagrined by the present cossion of Dulcigno to M ntenegro. The little country of hereditary fighters is an unwelsome neighbor, and its liability to also want Scutari in the near future disturbs the Austriacs The Dalmatian tongue of land which Austria holds is at al times open to the forage of the Montenegrias, and the stronger they become the greater the danger to Austria.

The Montenegrins, intreach d in their moun tain fastnesses, can never be extirpated by their enemies. Their position is as impregnable as was the retreat of Captain Jack in the lava beds. There is a vitality in their race which would seem to prophesy great possibilities should they ever drift into the Roman role of conquest.
